EXPERIENCE

Website Design and Development Intern

Jan 2025 – Jul 2025

Internship Studio

- Designed and developed responsive websites using HTML, CSS, JavaScript, and React.js.
- Integrated Spring Boot REST APIs with React.js frontend for full stack web solutions.
- Implemented routing, state management, and API integration in React applications following SDLC practices.
- Built reusable UI components with a focus on modern design and smooth user experience.
- Collaborated with team members to understand project requirements and deliver functional solutions.
- Performed debugging, testing, and performance optimization of web applications.

ACADEMIC PROJECTS

1. E-Commerce Web Application

Technologies: React.js, Java, Spring Boot, REST APIs, MySQL

- Developed a full-stack E-Commerce platform with product browsing, cart management, order placement, and secure transactions.
- Implemented RESTful APIs using Spring Boot for backend services with React.js frontend for a responsive user experience.
- Applied Object-Oriented Programming (OOP) principles and SDLC methodology throughout the Software Development lifecycle.
- Used MySQL for persistent data storage and management of product, user, and order information.

2. Online Bank Management System

Technologies: Core Java, JDBC, MySQL

- Developed a console-based banking system supporting account creation, deposits, withdrawals, and transaction history.
- Applied OOP concepts including encapsulation, inheritance, and abstraction for clean, modular code architecture.
- Used JDBC for database connectivity and executed optimized SQL queries for efficient data retrieval and storage.
- Designed relational database schema in MySQL to manage customer details, accounts, and transaction records.
